

## THERAPY ON DEMAND

Benefits of participation in The Bridge program include monitoring & reporting of these 4 important metrics within your facility.

### Attrition Rate of Residents

- Providing both Physical & Occupational Therapy services likely increases the probability of residents remaining independent longer, in turn decreasing the attrition rate of your facility.

### % of Residents Receiving BRIDGE Services

- Monitoring this information allows us to track the number of residents who are accessing the services available to them as well as track the attrition in comparison to those residents who participate in a program versus those who do not.

### Overall Patient Satisfaction

- As with any program or offering, feedback and satisfaction is important. We will monitor satisfaction on an ongoing basis - ie. 30 days after treatment begins, 90 days after treatment begins as well as after discharge or completion of the program.

### Total # of Falls

- Monitoring this information allows us to have more accurate information on the overall safety of your residents & fall risks in general.

## THERAPY ON DEMAND

How can we help you expand the services you offer to your residents?

### PT Services

- Balance Assessment & Fall Prevention
- GAIT Analysis
- Posture Analysis

**WHAT RESOURCES ARE AVAILABLE?**

**WHAT DO WE DO NOW?**

**HOW DO WE ACCESS THE RESOURCES?**

You have a family member who was recently ill or injured. You, and/or they, experienced Health Care at one or more levels (hospital, skilled nursing, etc.) and likely it was **confusing** and **overwhelming**.

Now you are on your own???

Your healthcare professionals tried to help but you might be left with **many questions** and **few answers**.

For example, Dad is a little confused and not able to be as independent as he was. Mom can't cook anymore. Showering is difficult. Dad still wants to drive...

**Navigating through the Health Care Systems is challenging for even Health Care Providers.  
That is why we created THE BRIDGE.**

**WHAT BENEFITS COME FROM USING THESE RESOURCES?**

**HOW MUCH WILL IT COST & WHO WILL PAY FOR IT?**

**WHAT WILL HAPPEN IF WE DON'T ACCESS THESE RESOURCES?**

## THE THERAPY ON DEMAND

Could You or Your Loved One Benefit From Comprehensive Physical, Occupational or Speech Therapy?

**Can't come to us??? WE'LL COME TO YOU!**

### What Is Therapy on Demand?

- Providing a variety of care options for residents of skilled, assisted and independent living facilities.
- Meeting the rehab needs using a patient centered, personalized program, tailored to meet the patient's & family's goals.
- Assisting in the prevention of illness & injury to promote wellness.
- Bridging the gap between *available* healthcare services & **YOUR** individual healthcare needs.

### Benefits of Therapy on Demand

Expertise of Licensed Therapists For:

- Maintenance or Improvement of Independence & Quality of Life
- Decreased Fall Risks
- Pain Management
- Injury Prevention
- Education & Access to Healthcare Services

### How to Take Advantage of Therapy on Demand

1. Collaborate with your healthcare professional to determine the services and location that will benefit you or your family member best.
2. Determine insurance eligibility and/or private pay options (therapy services are often covered by your insurance)
3. Obtain physician referral (if necessary)
4. Contact Burger Rehabilitation Systems, Inc. for further information.
